

Willowherbs

Rosebay Willowherb (*Chamerion angustifolium*)

Flowers vibrant **pink** in long spiked clusters

Stigma x-shaped.

Leaves alternate, on short stalks

Plant tall and almost hairless

Plant 80 – 150cm in height

Great Willowherb (*Epilobium hirsutum*)

Flowers deep **pink** and large.

Stigma x-shaped.

Leaves opposite, stalkless and toothed.

Plant tall and hairy

Plant 80 – 150cm in height

Hoary Willowherb (*Epilobium parviflorum*)

Flowers, **pink** and small

Stigma x-shaped.

Leaves opposite, some alternate. Stalkless and toothed.

Plant tall and hairy

Plant 30 – 90cm in height

Broad-leaved Willowherb (*Epilobium montanum*)

Flowers pale **pink** and small

Stigma x-shaped.

Leaves mostly opposite, stalked and toothed and hairless

Plant hairy and short

Plant 15 – 60cm in height

Short-fruited Willowherb (*Epilobium obscurum*)

Flowers **pink/lilac** and small

Stigma club-shaped

Leaves opposite, stalkless and toothed

Plant hairy and short with 2 ridges on stem

Plant 30 – 60cm in height

Epilobium Willowherbs

Marsh Willowherb (*Epilobium palustre*)

Flowers **pink** and small

Stigma club-shaped

Leaves opposite on very short stalks, toothed
Plant similar to *E. obscurum* but without ridged stem

Plant 30 – 60cm in height

American Willowherb (*Epilobium ciliatum*)

Flowers **pink** and small with clefted petals

Stigma club-shaped

Leaves mostly opposite, stalked, toothed and hairless
Plant **tall/short with 4 ridges on stem**

Plant 60 – 120cm in height

Rockery Willowherb (*Epilobium pedunculare*)

Flowers **pale pink** and small

Stigma club-shaped

Plant similar to *E. brunnescens* but with larger and obviously toothed laves

Plant Creeping

New-Zealand Willowherb (*Epilobium brunnescens*)

Flowers **pink** and small

Stigma club-shaped

Leaves opposite, round and slightly toothed

Plant creeping

Square-stalked Willowherb (*Epilobium Tetragonum*)

Flowers **lilac-pink** and small with clefted petals

Stigma club-shaped

Leaves almost stalkless and hairless

Plant **somewhat hairy with a square stem**

Plant 20 – 50cm in height

Willowherbs

Pale Willowherb (*Epilobium roseum*)

Flowers **pale pink** and small

Leaves mostly alternate, stalked
toothed and nearly hairless.

Plant short and sparsely hairy

Stigma club-shaped

Plant 30 – 60cm in height

Chickweed Willowherb (*Epilobium alsinifolium*)

Flowers, **bluish-red and small**

Leaves toothed on short
stalks

Plant **short and sparsely
hairy**

Stigma club-shaped

Plant 5 – 15cm in height
