

# Spring Flowering Plants Project

**National Biodiversity Data Centre**  
Documenting Ireland's Wildlife

T: 051 306 240

E: info@biodiversityireland.ie

National Biodiversity Data Centre has joined with the Botanical Society of Britain and Ireland on a project to record 14 of our most common spring flowers. All records received will contribute to the Atlas 2020 project, fieldwork for which is currently ongoing.

Can you help by submitting records of these plants in 2019? Please submit your records at: <https://records.biodiversityireland.ie/>. For more information visit: <http://www.biodiversityireland.ie/>

## Habitats to look out for spring flowers in

- Woodland
- Grassy bank
- Roadside
- Grassland
- Hedgerow
- Limestone pavement
- Riverbank
- Marsh

Lady Smock (Cuckooflower)

Wood Sorrel

Wood Anemone

Toothwort

Wild Garlic

Lords-and-ladies

Winter Heliotrope

Cowslip

Lesser Celandine

Primrose

Early-Purple Orchid

Bluebell

Early Dog-violet (please submit photo)

Common Dog-violet
